

Q1 Define a problem statement and give a brief Executive Summary snapshot

A] Executive Summary

- Analysis :-

As many people don't have time to go to a service center to service their vehicle. Due to their job or business they don't have time. Many people want that there should be home servicing of their vehicle.

- Findings :-

We have to make an application and website in which service center should be added which can do home service center. In this application we can add service center so that customer will choose their nearby service center.

B] Project Description :-

The primary goal of this project is to do a home servicing of the vehicle. This will save the time of customer. We need to make more number of service center who will do home service of the vehicle.

C] Project Scope :-

We will make application and website in that customer can choose the nearby service center for home service of the vehicle and service center owner can add

their service center in this application and website. So that service center will make profit from it and ~~each~~ customer will save the time.
